Educational Qualification : S.S.C Passed with First Division in the Year of 2016, From - JAC Ranchi (Jharkhand)

Total Experience : 05 Years.

Gulf Experience : 02 Years.

Indian Experience : 03 Years.

05 Years of experience in Piping & Mechanical field, Construction worked in Oil & Gas plant, Power plant, Petrochemical & Refinery etc.

Employment History:

28 SEP 2023 TO 25 JUN 2024

COMPANY NAME : BOC INDIA LIMITED.
PROJECT : TPD PLANT, JAMSHEDPUR, JHAKRHAND
POSITION : PIPING SUPERVISOR

03 SEP 2021 TO 02 SEP 2023

COMPANY NAME : MCSE.
PROJECT : REMOTE GAS DEHYDRATION UNIT, (TATWEER PETROLEUM, AWALI.)
POSITION : PIPING SUPERVISOR

05 AUG 2019 TO 04 AUG 2021

COMPANY NAME : VISHAL ENGINEERING & CONSTRUCTION COMPANY LTD.
PROJECT : HALDIA REFINERY LTD. CALCUTTA (W.B)
POSITION : PIPING SUPERVISOR

Skills

- 1) Stress Analysis
- 2) Piping System Design
- 3) Piping Material and Specs
- 4) Isometric Drawing With BOM
- 5) Flange, Valve & Gasket
- 6) Piping Layout Design
- 7) Piping GA
- 8) Equipment Layout
- 9) Pipe Support & Span Calculation
- 10) Steam Piping

- **Knowledge of various code and standards like**, (ASME B31.1, 3, 4, 5, 8, 9, 11.) (ASME B36.10, 19.) (ASME B16.47, 5, 9, 11.) AWS, DM, ASME, SECII, V, VIII & IX.

Software Knowledge

- **Auto-CAD**
Knowledge about the basic commands, P&ID drawing, Equipment layout and piping isometrics.
- **CEASER- II**
Knowledge about basic inputting, modeling of piping and equipment (like tanks, pumps and heat exchanger), supports and their consideration in CEASER.
- **Smart Plant3D**
Knowledge about grids, structure, equipment, piping, drawing and reports.

Industrial Visit

- **Rashtriya Chemicals & Fertilizers (RCF), Pvt. Ltd**, (Mumbai).
Overviews of pipes and pipe fittings of Sulphuric and Nitric Acid plants. April 2019

Scope of Work:

The scope of work covers the entire Construction of Oil and Gas Plant works including Mechanical Welding and Specially Piping with fire detection for construction, plumbing and utility systems works; disconnect switches, temporary power feed and Pre- commissioning works of Oil Refinery Plant at Ruwais Refinery Expansion Project.

Duties and Responsibilities:

- Handling all the site activities to fabrication erection of piping.
- Knowledge of fit up of piping as per drawing.
- Making inspection and maintaining all kind of required documentation.
- Making fabrication erection fit up as per drawing and condition, handles manpower to provide job as per requirement.
- Carrying out testing of pipe line along with following the safety rules and regulation.
- Assign manpower and equipment in accordance with priorities.
- Preparation of connection sketches and BOM.
- Preparation of bill as approved drawing and preparing daily report.

- Ability to arrange the material for Hydro testing & pneumatic testing on site or in the workshop.
- To visit the construction site daily to check whether all works Material, Equipments are in accordance with project drawing
- Depth experience in fabrication & pipe spool & static equipment by referring to API ASM
- Preparation of bill as per approved drawing and preparing daily progress reports.
- Coordinate piping installation activities according to the planning schedule.
 - Supervision of workshop activities.
 - Fabrication and erection of pipe spool and its supports.
 - Supervision of fabrication, erection and execution of the project. Inspect the pipes and piping materials as per the specification.
- Supervision the daily piping erection activities as per the test packs which include modification, relocation and dismantling of various piping network assemblies including the inline equipment such as valves, and other piping components as per the test packages released for erection.
- Coordinate with site Foreman, Charge hand and Senior Fitters and Welders for the job in the site for installing the spools, fit-up, welding, test pack's punch out completion. Arranges the required resources such as piping spools from fabrication yards, flanges, valves, other items from lay down yard including gaskets, stud bolts etc.
- Piping Fabrication, Erection, Hydro testing, Pre-commissioning, commissioning & Maintenance work very good knowledge in Shutdown job Fabrication erection, all piping structure work.
- Fabrication & erection of structure.
- Having good knowledge of heat exchangers, fabrication of exchanger, vessels, Column, and tank with supporting, fabrication lateral Tee, any type branch, schedule branch, eccentric reducer, concentric reducer, dummy support, center line bottom-and eccentric, repairing, modification, piping and plate rolling.
- Clamping supporting and fabrication of heavy beam, column etc, also very good knowledge of all related drawings.
- Coordinate all site work activities of sub contractors.
- To solve site drawings those not matching site conditions and materials take off.
- Supervise all piping and support installation activities.
- Test pack review and coordination of testing, follow method statement.

Technical Knowledge

- Installation of shell & tube heat exchanger at ground level including level at elevated location with lifting plan and safety measure with heavy duty cranes and trained riggers and fitters and Foreman.
- Verification of foundation bolts as per the actual equipment available at site and prepare the heavy lifting platform for pressure vessels, columns and reactors.
- Site fabrication on spool pieces as per the isometric drawings and its identification making according to installation schedule on quality, meeting schedules avoiding wrong fabrication and re-work.
- Conducted tool box meeting and reported safety violations by on job craftsmen to site safety officer.

- Ability to arrange the material for Hydro testing & pneumatic testing on site or in the workshop.

- To visit the construction site daily to check whether all works Material, Equipments are in accordance with project drawing
- Depth experience in fabrication & pipe spool & static equipment by referring to API ASM
- Preparation of bill as per approved drawing and preparing daily progress reports.
- Coordinate piping installation activities according to the planning schedule.
 - Supervision of workshop activities.
 - Fabrication and erection of pipe spool and its supports.
 - Supervision of fabrication, erection and execution of the project. Inspect the pipes and piping materials as per the specification.

- Supervision the daily piping erection activities as per the test packs which include modification, relocation and dismantling of various piping network assemblies including the inline equipment such as valves, and other piping components as per the test packages released for erection.
- Coordinate with site Foreman, Charge hand and Senior Fitters and Welders for the job in the site for installing the spools, fit-up, welding, test pack's punch out completion. Arranges the required resources such as piping spools from fabrication yards, flanges, valves, other items from lay down yard including gaskets, stud bolts etc.
- Piping Fabrication, Erection, Hydro testing, Pre-commissioning, commissioning & Maintenance work very good knowledge in Shutdown job Fabrication erection, all piping structure work.
- Fabrication & erection of structure.
- Having good knowledge of heat exchangers, fabrication of exchanger, vessels, Column, and tank with supporting, fabrication lateral Tee, any type branch, schedule branch, eccentric reducer, concentric reducer, dummy support, center line bottom-and eccentric, repairing, modification, piping and plate rolling.
- Clamping supporting and fabrication of heavy beam, column etc, also very good knowledge of all related drawings.
- Coordinate all site work activities of sub contractors.
- To solve site drawings those not matching site conditions and materials take off.
- Supervise all piping and support installation activities.
- Test pack review and coordination of testing, follow method statement.

Personality Traits

- Hardworking, flexible, punctual and reliable.
- Good decision making ability.
- Quick Learner

Hobbies

- Reading book, listening music
- Play Badminton
- Cooking, Riding
