Canada Extends Foreigners' Ban on Home Purchases Until 2026

Canada has extended the ban on foreign home buyers for an additional two years as the real estate market shows signs of recovery, sparking concerns about housing affordability in cities such as Toronto and Vancouver.

Initially implemented by Prime Minister Justin Trudeau's government in 2022, the ban preventing non-Canadians from purchasing residential real estate was set to expire on January 1, 2025. However, it has now been extended to January 1, 2027. Finance Minister Chrystia Freeland stated on Sunday, "By extending the foreign buyer ban, we will ensure houses are used as homes for Canadian families to live in and do not become a speculative financial asset class." The government expressed worries about residents being priced out of their local housing markets.

While the ban is in effect, exemptions are made for non-Canadians purchasing vacant land or residential property for development. Foreign students and individuals on work permits are also exempt, provided they have resided in the country for an extended period and have not previously bought property.

The housing market has experienced increased activity recently, with indications that the Bank of Canada may consider cutting interest rates later in the year. In December, the national benchmark home price rose to C\$730,400 (\$542,500), marking a 36 percent increase over five years. Greater Vancouver and greater Toronto reported benchmark home prices of C\$1.2 million and C\$1.1 million, respectively.

Various levels of government in Canada have introduced measures to mitigate rising housing costs. In the upcoming week, the Toronto city council will review a motion proposing a 10 percent tax on home purchases by non-residents, in addition to the 25 percent "non-resident speculation tax" imposed by the province of Ontario.

Toronto Mayor Olivia Chow's office did not immediately respond to requests for comment on Sunday. The motion scheduled for consideration on February 6 aims to "maintain a level of affordability in the residential real estate market by discouraging international buyers from purchasing property in the City of Toronto, particularly those buyers who do not intend to live in the property."

Indian Expat Secures Dh15 Million Grand Prize in Big Ticket Raffle Draw

Al Ain Architectural Draftsman, Rajeev Arikatt, Scoops Dh15 Million Grand Prize in Series 260 Big Ticket Raffle Draw. In a surprising turn of events, Rajeev Arikatt, a resident of Al Ain working as an architectural draftsman, emerged as the fortunate winner of the Dh15 million grand prize in the recent Series 260 Big Ticket raffle draw. Expressing his disbelief, Rajeev shared that winning such a substantial amount was beyond his wildest dreams. He has consistently purchased tickets for the past three years, and this unexpected windfall has left him elated. Upon receiving the call from Big Ticket representatives, Rajeev, who resides in the UAE with his wife and two young children, aged five and eight, couldn't contain his excitement. Notably, he had purchased the winning ticket online and generously shared the joy by involving 20 close friends and family members in the celebration of this life-changing victory.

Final Match of FIFA World Cup 2026 to be Hosted in New Jersey, Opening Game Assigned to Mexico

MetLife Stadium in New York/New Jersey has been selected as the venue for the 2026 FIFA World Cup final, as announced by FIFA on Sunday. The decision followed a robust competition with Dallas, ultimately securing the July 19th final for New York. The 48-team tournament will kick off with the opening game at Mexico City's Azteca Stadium on June 11.

FIFA President Gianni Infantino expressed excitement about the most inclusive and impactful World Cup ever, spanning 104 matches in 16 state-of-the-art stadiums across the USA, Canada, and Mexico. The semi-finals will be hosted by Atlanta and Dallas, while the third-place game will take place in Miami. Quarter-final matches are scheduled for Los Angeles, Kansas City, Miami, and Boston.

With the majority of games held in the USA, New York's MetLife Stadium will be a focal point for the tournament, hosting the final and continuing the legacy of the 1994 World Cup, which also took place in the United States. The decisions were revealed on live television, featuring FIFA President Infantino alongside celebrities like Kevin Hart, Drake, and Kim Kardashian.

MetLife Stadium, with a seating capacity of 82,500, is situated across the Hudson River in East Rutherford, New Jersey. The stadium has a history of hosting international football events, including the final of the 2016 Copa America tournament.

Despite Dallas's strong bid, AT&T Stadium in Arlington, Texas, will host nine games, the highest number among the venues. Los Angeles faced challenges due to disagreements with FIFA regarding upgrades to SoFi Stadium, resulting in Dallas and New York securing significant roles in the tournament.

Azteca Stadium in Mexico City will make history by hosting World Cup tournament games in three editions, following its role in 1970 and 1986. The World Cup coincides with the 250th anniversary of American independence, with a round-of-16 game scheduled on July 4th in Philadelphia.

The tournament's expansion to 48 teams brings the total number of matches to 104, with a format of 12 groups of four teams. The knockout stage will feature the top two teams from each group and the eight best third-placed teams. The match schedule will be finalized after the qualification process, and the full draw is expected in late 2025. The 16 host cities include Atlanta, Boston, Dallas, Guadalajara, Houston, Kansas City, Los Angeles, Mexico City, Miami, Monterrey, New York-New Jersey, Philadelphia, San Francisco Bay Area, Seattle, Toronto, and Vancouver.

Dubai International Airport Warns Against Lost Luggage Scams

Dubai International Airport (DXB) has issued a Warning to passengers regarding fraudulent activities on

Facebook and Instagram, where "fake profiles" claim to sell lost luggage. In an official scam alert, DXB emphasized that such profiles are not affiliated with the airport and urged passengers to remain vigilant and avoid clicking on any suspicious links.

As the world's busiest airport for the ninth consecutive year, DXB manages a significant volume of baggage through its three terminals annually. dnata, responsible for baggage movement at DXB, reported handling over 82 million bags in 2022, serving over 100 airlines and millions of passengers traveling to more than 250 destinations. The baggage handling process involves advanced conveyor belts, lifts, and a Baggage Handling System (BHS) with 160km of tracks under Terminal 3 alone.

The journey of a bag at DXB begins 180 minutes before the scheduled departure, utilizing the automated Early Bag Storage facility with a capacity of 15,000 bags. The bags, tracked through a distinctive yellow tray linked to their luggage tag, undergo multiple security screenings and transfers before being loaded onto the aircraft.

In case passengers cannot locate their baggage at the terminal, they are advised to file a report at the baggage services desk near the baggage claim area. The report is tracked using a unique reference number, and passengers are contacted when the baggage is found, with an agreed-upon delivery time.

DXB emphasized its commitment to passenger safety and security, urging travelers to report any suspicious activities and not fall victim to online scams related to lost luggage.

Kuwait Introduces Online Permits for Part-Time Employment

In response to the recent implementation of a secondary employment policy for private sector workers, Kuwait has introduced an online service for acquiring part-time work permits. The Kuwaiti Public Authority of Manpower (PAM) has unveiled this service on Sahel, an electronic government services platform. The initiative aims to cater to labor market demands while offering a convenient process for employers. The service incurs a fee of KD5 for a one-month permit, KD10 for three months, KD20 for six months, and KD30 for a one-year permit, with Kuwaiti workers exempted from these charges, according to Kuwaiti newspaper Al Jarida.

In December of the previous year, Kuwait announced the authorization for private sector employees to engage in a secondary part-time job with the consent of their primary employers, and this policy was officially implemented the following month. A decree from the Interior Ministry stipulated a maximum of four hours per day for the second part-time job, requiring an additional permit from PAM. Notably, the contracting sector, grappling with a labor shortage, is exempt from this time restriction.

The objective of this initiative is to utilize the existing workforce in Kuwait rather than relying on foreign labor recruitment. This approach is intended to address demographic imbalances within the country while simultaneously meeting the demands of the job market. As part of its "Kuwaitisation" employment strategy, the country is actively working to rebalance its population by replacing foreign workers with its own citizens. Currently, foreigners make up approximately 3.2 million of Kuwait's total population of 4.6 million.
